

Keller Engineers of New Jersey, LLC is seeking construction inspectors with an emphasis in heavy-highway construction engineering.

Keller Engineers of New Jersey, LLC, a subsidiary of Keller Engineers, Inc. is a multi-disciplinary full-service engineering firm, specializing in client-focused professional services, including civil engineering, structural engineering and land surveying to our public and private clients and recently celebrated our 25-year anniversary. The firm is comprised of approximately 60 employees - professional engineers, professional landscape architects, registered land surveyors, designers, technicians, environmental specialists, analysts, bridge inspectors, construction inspectors and administrative personnel.

Our professionals bring the experience and expertise necessary to serve clients throughout New Jersey, Pennsylvania, Maryland, Ohio, Virginia, West Virginia, Tennessee and North Carolina. Our structural engineering team provides services throughout the United States and has the capability to provide services internationally. Our key project areas include: transportation (roadway, bridge and rail), commercial, corporate, industrial/ business parks, government, education, healthcare, financial, residential, recreation, retail, hospitality, agricultural/ natural resources, water/wastewater and oil and gas.

We adhere to the highest standards of our profession's ethics and conduct. Our staff works together to achieve common goals, through trust, honesty and accountability.

We are currently seeking inspectors to support our construction services group in New Jersey.
